AUTHORSHIP DECLARATION

The criterion for “authorship” is clearly defined in the UNSW Research Code of Conduct and the Procedure for Authorship and for Resolving Disputes between Authors.

The minimum requirement for authorship is that an author must have had a substantial intellectual contribution to the paper or research output, where any one of the following conditions are met:
1. conception and design; and/or
2. analysis and interpretation of data; and/or
3. drafting the article or revising it critically so as to contribute to the interpretation.

According to this definition, the authors of the paper titled:

submitted/resubmitted to………………………………………………………………………………………………….
on………………………………..are the undersigned, and there are no other valid authors. The order in which the authors’ names appear in the submitted paper is acceptable to all authors. All authors agree that they have met the minimum requirements listed above and have approved the submitted version of the paper. All authors agree that they are responsible for the content of the paper.
