Dear Colleagues,

This is DVC(R) Bulletin #18 provides an update on important issues affecting researchers at UNSW. If you missed the previous bulletins – the contents are available at http://www.dvcresearch.unsw.edu.au/newsletter.html.

1. WELL-BEING RESEARCH SHOWCASE WINNERS

Copies of abstracts for both presentations and posters presented during the two day Well-being Research Showcase program are available from the Research Showcase Website at http://www.unsw.edu.au/research/res/researchshowcases.html

I am pleased to announce the following presentation and poster winners:

**Jenaleen Law** - *Positive Ageing: How to live to 100 years old*
School of Public Health and Community Medicine

**Nina Funnell** - *Sex, ethics and digital technology: promoting ethical use and interaction with new media to improve individual and community well being*
Journalism and Media Research Centre

**Ruiwen Benjamin Heng** - *Association of Human Papillomavirus with breast cancer*
School of Biotechnology and Biomolecular Sciences

**Dr Claire Wakefield** - *The psychological impact of completing childhood cancer treatment: A systematic review of the literature and guidelines for end-of-treatment support*
School of Women’s and Children’s Health

2. NEW RESEARCH SHOWCASES FOR 2009

Three new Research Showcases are planned for the remainder of 2009:

**“Indigenous” – held on 10-11 November 2009.**

- **Date:** Tuesday 10 and Wednesday 11 November 2009
- **Venue:** Law Lecture Theatre (G04)
- **Faculties:** All Faculties
- Proposed themes include but are not limited to *Rights & Justice, Health & Wellbeing, Dialogue & Nation Building,* and *Work & Creativity*

We are now calling for abstracts for the Indigenous Research Showcase. Please read the [Information Sheet](#) before submitting your abstract using the [Abstract Template](#). Abstracts should be sent to research-showcase@explode.unsw.edu.au no later than COB Friday, 18 September.

**“Robotics” – held on Friday, 20 November 2009**

- **Venue:** Ritchie Theatre and Foyer/Galleries (Scientia Bldg)
- **Faculties:** Medicine/FBE/ADFA/Engineering
Proposed target issues include but are not limited to: medical applications, artificial intelligence, life style, construction, urban search and rescue, facilities management, process management. Proposed topics include but are not limited to: keyhole surgery, DNA analysis using microprocessor robotics, robots in defence and surveillance, construction and building management, control systems, bionic organs, artificial limbs, accessories for the disabled.

**We are now calling for abstracts for the Robotics Research Showcase.** Please read the [Information Sheet](#) before submitting your abstract using the [Abstract Template](#). Abstracts should be sent to research-showcase@explode.unsw.edu.au no later than **COB Friday, 2 October 2009**.

“Population Change” – held on Friday, 4 December 2009

**Venue:** Ritchie Theatre and Foyer/Galleries (Scientia Bldg)

**Faculties:** FBE/Law/Business/FASS/Medicine

**Proposed target issues include but are not limited to:** actuarial forecasts, public health, geriatric medicine, Indigenous populations, housing and services, social policy for demographic change management. **Proposed topics include but are not limited to:** migration, Indigenous populations, aging populations, labour markets, climate change and the impact on population, finance, urban planning.

**We are now calling for abstracts for the Population Change Research Showcase.** Please read the [Information Sheet](#) before submitting your abstract using the [Abstract Template](#). Abstracts should be sent to research-showcase@explode.unsw.edu.au no later than **COB Friday, 2 October 2009**.

Further information on the planned showcases is available at: [http://www.unsw.edu.au/research/res/researchshowcases.html](http://www.unsw.edu.au/research/res/researchshowcases.html)

### 3. CITATIONS FOR UNSW IN RESEARCH PUBLICATIONS

In conducting impact measurement exercises for various purposes across the University, it has been observed that staff affiliation data is often incorrectly stated, or completely absent from records in Web of Science and Scopus etc. This makes it difficult to track UNSW impact in a consistent way, but also means that we are missing out on citations that we could rightfully claim.

To overcome this issue, “The University of New South Wales” should be consistently recorded as the affiliation in order to ensure that appropriate academic recognition is received from the publications of staff and students.

### 4. Research Administrators Network

The Research Administrators Network (RAN) has been formed by the UNSW Grants Management Office to strengthen the administrative base for external research grants management across the University. Meeting monthly, the RAN will exchange information about upcoming schemes and current issues in research administration, consolidate the working relationships between grants management staff and School and Faculty research administrators and provide opportunities for training and staff development.

The Network is open to all UNSW staff who play a role in assisting researchers in applying for and managing external research projects. The RAN has met twice so far and we encourage and welcome new members to join. **Our next meeting is 14 October 2009.** Further details including the terms of reference, minutes of previous meetings and upcoming meeting details can be found on the RAN Website: [http://www.gmo.unsw.edu.au/About/ResearchAdminNetwork.html](http://www.gmo.unsw.edu.au/About/ResearchAdminNetwork.html)

To Join the RAN, email mygrants.gmo@unsw.edu.au with the subject line: **Subscribe to Research Administrators Network.**

**Professor Les Field**
**Deputy Vice-Chancellor (Research)**
