Rejoinders and Response to Assessors

Opportunity for researchers to respond to initial assessments of their proposal.

**ARC:**
- Discovery Projects (DP13): May-June 2012
- Discovery Indigenous (DI13): June-July 2012

**NHMRC:**
- Interviews for Research and Practitioner Fellowships will take place from 2 – 4 July 2012
- Project Grants (PG13): July – August 2012
Workshop: Challenges and Opportunities for Research Administrators

Why?

- Encourage information sharing and networking among RAN members
- Provide opportunity for greater input from RAN members into the way the network develops and meetings are run
- Gather information to help:
  - Schedule agenda items for future meetings
  - Create a RAN member survey to better understand how members want to see the network develop
  - Identify skill and knowledge needs for research administrators
Getting to know you...

At your tables and within 10 minutes:

Introduce yourself:
• Name
• Where you work
• How long you’ve worked in research administration
• Biggest challenge and biggest opportunity for you as a research administrator over the last 12 months
The BIG issues

At your tables, as a group discuss and document:

In the next 12 months and beyond what do you see as the challenges and opportunities for research administrators

What solutions exist or what are you doing to deal with these issues and capitalise on the opportunities?

How could the Research Administrators Network help?

What else could help?

What skills and knowledge would you like to develop further to help you?

*Note, at the end of your 20 minutes you will be asked to select your top one or two items to report back on.
