All applications from UNSW staff & students must be submitted via the Grants Management Office (GMO). The internal deadline for submission of grant applications to the GMO is 2 weeks prior to the external deadline. This timeframe allows the GMO to ensure applications comply with UNSW policies and sponsor requirements.

New grant opportunities are also posted on the Current Funding Opportunities Page as they become available.

**NEW: Defence Science Partnerships | Design and Analysis of Simulation Experiments**

The Land Capability Analysis branch of DST Group of the Department of Defence is exploring the possibility of a collaborative agreement with an Australian University with expertise in the design and analysis of computer simulation experiments. Estimating and comparing the operational effectiveness of alternative military systems and their sensitivity to uncertainty through the efficient design of combat simulation experiments and effective statistical analysis of the data generated is an important element in the evidence-based decision-making of Defence projects. These simulation experiments are distinct from traditional experiments and trials in that they are stochastic, have a very large parameter space and often compare multiple treatments across multiple response variables. UNSW researchers are invited to apply ...

External Deadline (EOI): 28 July 2017

**NEW: ACCAN | Grants Program**

Funding for projects which either undertake research on telecommunications issues, represent consumers or create educational tools which empower consumers to make decisions in their own interests and to understand telecommunications products and services. All eligible projects address systemic issues for telecommunications consumers. ACCAN works towards a communications market that is fair and inclusive for all- a market which is available, accessible and affordable ...

External Deadline: 25 July 2017

**NEW: AINSE | Residential Student Scholarships**

Residential scholarships offered to students holding a RTP or equivalent and whose PhD project topic closely aligns with any of the strategic focus areas for ANSTO’s research programmes- the environment, human health and the nuclear fuel cycle. In addition, opportunities exist for postgraduate students interested in contracted research and industrial engagement projects in the defence industry area ...

External Deadline (EOI): 28 July 2017

**NEW: National Stem Cell Foundation of Australia | Metcalf Prizes for Stem Cell Research**

Funding for mid-career researchers, 5 to 10 years past their PhD or MD (research based), working in stem cell research in Australia. The prizes support the National Stem Cell Foundation of Australia’s mission to promote the study and use of stem cells in the prevention or control of disease in human beings and to enhance stem cell public education ...

External Deadline: 4 August 2017
NEW: Tour de Cure | Research Support Program
Tour de Cure funds cancer projects in the following areas:

- Research that brings together academics and clinicians, speeding up the ‘bench to bedside’ process and give cancer patients access to the latest treatments, as well as opportunities to improve care for future generations.
- Research that will identify new ways to detect, treat and prevent cancer.
- Support projects that personally connect people affected by cancer, support them emotionally, physically and financially through their treatment, and ultimately help create hope in the face of this disease.
- Prevention projects that inform, equip and raise the level of awareness across the Australian community, that 1 in 3 cancers are preventable...

External Deadline: 11 August 2017

NEW: Academy of Science | Fellowships to India
Support for Australian researchers to travel to India and work with leading researchers at major Indian science and technology organisations for a period of between 3 and 9 months. Fellowships are intended to facilitate long-term science, technology and innovation collaboration between Australia and India by:

- Developing researchers’ expertise in international collaboration and fostering long-term relationships between Australian and Indian researchers.
- Increasing Australian researchers’ understanding of Indian culture, science system and research practices.
- Developing researchers’ leadership skills as future ‘science ambassadors’ for Australia.
- Providing a catalyst for future Australia–India research collaborations...

External Deadline: 9am 11 September 2017

INTERNATIONAL:

NEW: Cancer Research UK- Grand Challenge (UK)
A series of £20m awards seeking international, multi-disciplinary teams willing to take on the toughest challenges in cancer- tissue specificity, tumour vaccinology, treatment regimens, dormancy, lethal vs non-lethal, artificial intelligence, microbiota, and cancer causes. The awards provide the freedom to try novel approaches, at scale, in the pursuit of life changing discoveries...

External Deadline (EOI): 12 October 2017

Closing Soon:

- MS Research Australia | Postgraduate Scholarships
  External Deadline: 28 July 2017...

- National Library of Australia | Creative Arts Fellowship for Australian Writing
  External Deadline: 28 July 2017...

- CSL | Centenary Fellowships
  External Deadline: 31 July 2017...

- Wharton Business School and QS Quacquarelli Symonds | Reimagine Education Awards
  External Deadline: 31 July 2017...

- APEC Young Scientist Training Program (KR)
  External Deadline: 31 July 2017...

- NSW Government- Arts and Cultural Development Program | Create NSW Fellowships
