All applications from UNSW staff & students must be submitted via the Grants Management Office (GMO). The internal deadline for submission of grant applications to the GMO is 2 weeks prior to the external deadline. This timeframe allows the GMO to ensure applications comply with UNSW policies and sponsor requirements.

New grant opportunities are also posted on the Current Funding Opportunities Page as they become available.

Funding Calendar Update: ARC Discovery Early Career Researcher Award
In response to feedback from university research offices, the ARC has updated the indicative closing date for DECRA 2019 to 14 March 2018. In the previous iteration of the funding calendar, the date was listed as 28 February.

Closing 31 July 2017: UNSW-São Paulo Joint Research Grants
The UNSW-São Paulo Research Foundation (FAPESP) Joint Research Grants aim to foster scientific and technological cooperation between researchers from UNSW and São Paulo, and include joint funding for collaborative research activities and academic mobility. Applicants are encouraged to submit funding applications for innovative and sustainable programs in the areas of science, engineering and technology built around collaborative research initiatives.

Applications require a joint submission by both a UNSW researcher(s) and their collaborators based at a higher education institution in São Paulo, Brazil. Guidelines and further information is available at the FAPESP-UNSW Joint Research Grants Website. If you have any enquiries please email research.partnerships@unsw.edu.au.

**NEW:** European Commission | Marie Skłodowska Curie Individual Fellowships

The goal of the Fellowships is to enhance the creative and innovative potential of experienced researchers, wishing to diversify their individual competence in terms of skill acquisition through advanced training, international and intersectoral mobility. Fellowships provide opportunities to acquire and transfer new knowledge and to work on research and innovation in a European context (EU Member States and Associated Countries) or outside Europe. The scheme particularly supports the return and reintegration of researchers from outside Europe who have previously worked here. It also develops or helps to restart the careers of individual researchers that show great potential, considering their experience. Cross-cutting priorities include gender, socio-economic science and humanities; and international cooperation ...more

**External Deadline:** 14 September 2017
