Preview of application for the 2019 round of the Research Infrastructure Scheme (RIS)

Introduction

The UNSW Research Infrastructure Scheme (RIS) funds equipment and other infrastructure, including research support staff. This year, applications will be accepted via an online Application Management System (AMS), which will be made available on August 16, 2018. In the meantime, below is a summary of the sections you will be required to complete in the AMS. This is a guide only, and more information on each section will be provided in the AMS.

Sections of the Online Application Form:

Project and Applicant Summary

- Project title, type and duration
- Details of the approving school(s), faculties(s) and/or MWAC unit(s)
- Details of principle investigator and other applicants

Project Description

- Short description of equipment, infrastructure or support requested (1000 words)
- Details of the location that the equipment, infrastructure or staff are to be situated (1000 words)
- Explanation of the strategic purpose of the request, outlining the impact the request will have on improving UNSW’s research capacity (2000 words)
- Details of the major research programs and groups that will be supported by the proposal (1000 words)
- Brief outline of the operational plan of the infrastructure, including any ongoing costs and how these will be met, and any proposed access mechanisms (1000 words)

Budget Table and Justification

- Details of items requested along with amounts requested centrally for each year, and amounts to be contributed by schools/faculties/units. Budget table will be provided by the online AMS.
- Justification and priority of each budgeted item, particularly for major items where only one quote is provided. Include justification for level of appointment for staff (1000 words)
- Short description of proposed cost recovery mechanism for Network Lab applications (500 words)

Space, OHS and Compliance Considerations

- Indication of required space, installation and refurbishment requirements
- Indication that any OHS, risk assessment, compliance and maintenance requirements have been considered
- The lead CI will be asked to certify the information within the application (certification checkbox).

Supporting Documentation

- The appropriate number of quotes for items requested must be attached to application (upload)
- Complete Site and Services Checklist is completed and must be attached to application (upload)
