Subject Score
Use an "X" on the line below to indicate the amount of pain you believe the animal is experiencing (0= no pain, 10= unbearable pain)

<table>
<thead>
<tr>
<th>Score</th>
<th>Coat Appearance</th>
<th>behaviour</th>
<th>Breathing</th>
<th>Gait</th>
<th>Posture</th>
</tr>
</thead>
<tbody>
<tr>
<td>0</td>
<td>Normal, no porphyrin</td>
<td>Normal cage exploration animal calm and interactive. Responds to inspector’s presence. Moves freely to investigate</td>
<td>Normal</td>
<td>Normal</td>
<td>No huddling, Hunching or twitching</td>
</tr>
<tr>
<td>1</td>
<td>Mild piloerection/porphyrin</td>
<td>Minimal cage exploration on but still reactive to inspector some investigative behaviour</td>
<td>Rapid</td>
<td>Slight Asymmetry</td>
<td>Some twitching</td>
</tr>
<tr>
<td>2</td>
<td>Moderate piloerection/porphyrin</td>
<td>No cage exploration, reluctant to move No interaction with external stimuli</td>
<td>laboured</td>
<td>Obvious limp or favouring</td>
<td>Some huddling and twitching</td>
</tr>
<tr>
<td>3</td>
<td>Severe piloerection/porphyrin</td>
<td>Moribund Does not acknowledge any stimuli</td>
<td>Cyanosis</td>
<td>Paralysis</td>
<td>Huddling, hunching &amp; twitching</td>
</tr>

</table>

Score
Total 0: no intervention- re-check in 8-12 hours (twice daily).
Total 1-2: re-check in 1-2 hours
Total 3 or greater (or no improvement from 1-2 hours ago): start analgesia
Total 10: progress to next tier of analgesic regime & re-evaluate after 1 hour. Consider seeking expert advice.
If 3 is scored in a single category the rat must be euthanized immediately and reported the AWO
