Grant News
1 April 2016

Never Stand Still

All applications from UNSW staff & students must be submitted via the Grants Management Office (GMO). The internal deadline for submission of grant applications to the GMO is **2 weeks prior to the external deadline**. This timeframe allows the GMO to ensure applications comply with UNSW policies and sponsor requirements.

New grant opportunities are also posted on the Current Funding Opportunities Page as they become available.

NEW: Australian Rotary Health | Mental Health Research Grants
For individuals or research teams in clinical or public health fields for grants in support of research projects relating to the mental health of young Australians …more
External Deadline: 27 May 2016 (EOI), short-listed applicants invited to submit full applications in June.

NEW: Pfizer | Australasian Paediatric Endocrine Care (APEC) Research Grants
APEC Grants are designed to encourage junior researchers, and are open to medical graduates from any country who are currently residing, working, and conducting research within Australasia. Applicants must be currently registered to practice medicine in Australasia, and the majority of the research must be conducted in Australasia …more
External Deadline: 11 April 2016

NEW: The Kids Cancer Project | Grant Applications
To support research which will lead to better ways to diagnose, treat & cure childhood cancer, improve capabilities and survivorship. Proposals must align with one of more of the following priorities: improving survival and treatments, late effects, capabilities, understanding childhood cancer and the causes, adolescents and young adults, and access to care …more
External Deadline: 13 April 2016

NEW: Australian Museum | Awards and Fellowships
For researchers and students to visit the Australian Museum and work with scientists on the Museum's collections and in the field. The Museum's research focus is in understanding and ameliorating impacts of climate change on biodiversity, contributing to the understanding and management of pest species; understanding what constitutes and influences effective animal conservation; and applying wildlife genomics/DNA to solve key problems.

Australian Museum Research Institute (AMRI) Funding

The AMRI focuses on some of today's major environmental challenges: climate change impacts on biodiversity, the detection and biology of pest species, and understanding what constitutes and influences effective biodiversity conservation.

- AMRI Postgraduate Award- open to all students enrolled in any postgraduate qualification in a field relevant to the Museum's Science Strategy.
- AMRI Visiting Research Fellowship- Applicants must be nominated by an AMRI staff member who is the leader of a research project. The fellowship is offered to researchers intending to work across any of the museum's collections including cultural, anthropological as well as the natural science collections.
- AMRI Visiting Collection Fellowship- open to researchers working in a field relevant to the Museum's Science Strategy.

- Chadwick Biodiversity Fellowship- an opportunity for an up-and-coming biodiversity scientist to write papers, apply for grants and network with other research scientists in a supportive environment.

Additional Funding

- The Peter Rankin Trust Fund for Herpetology – grants of up to $1000 to herpetological projects
- Leo Fleischmann Fellowship- grants of up to $2,500 to conduct research on the art and material culture of the Pacific region.

External Deadline: 15 April 2016 for all schemes except Chadwick Biodiversity Fellowship (17 June)

NEW: Rebecca L. Cooper Medical Research Foundation | Al & Val Rosenstrauss Research Fellowship 2016

For work within one of the six nominated areas of medical research supported by the Foundation: brain sciences (psychiatry and neurology), endocrinology and diabetes, geriatrics, lung disease (other than cancer), rheumatology, and vision sciences …more

External Deadline: 29 April 2016
