All applications from UNSW staff & students must be submitted via the Grants Management Office (GMO). The internal deadline for submission of grant applications to the GMO is 2 weeks prior to the external deadline. This timeframe allows the GMO to ensure applications comply with UNSW policies and sponsor requirements.

New grant opportunities are also posted on the Current Funding Opportunities Page as they become available.

**NEW: The Global Connection Fund | Priming Grants First Round 2017**
Initial funding support to promote collaboration between Australian Researchers and Small to Medium Enterprises (SMEs). The program is designed to:
- increase linkages and collaborations with key global economies
- promote researcher-industry engagement and knowledge transfer
- encourage translational activities, end use development and commercialisation outcomes
The program only supports Researcher-SME collaborations and does not support SME-SME or Researcher-Researcher collaborations ...

**External Deadline:** 23 February 2017 (EOI)

**NEW: Cancer Institute NSW | Early Career and Career Development Fellowships**
- **Early Career Fellowship:** three year full time fellowships to provide salary and project support to encourage researchers (up to five years of postdoctoral research experience) to choose cancer research as their career and to continue independent research that is nationally and internationally competitive.
- **Career Development Fellowship:** three year full time fellowships to provide salary and project support to encourage researchers (up to 10 years of postdoctoral research experience) to continue independent cancer research that is nationally and internationally competitive.

**External Deadline:** 12 noon, 6 April 2017 ...

**NEW: Cure for MND Foundation | Translational Research Grant**
Grants to fill the critical translational gap between basic, discovery-phase research and late-stage drug development. The grants are open to researchers at all stages in their career, and seek to encourage collaboration and cooperation between MND research labs, biotechnology companies, pharmaceutical companies, and other industry partners around the world. Projects should be aimed directly at the advancement of new therapies for MND. Funding will support post-discovery, pre-clinical development of therapeutics for MND and development activities ranging from validation of therapeutic leads through to the submission of investigational new drug and clinical trial applications to regulatory bodies ...

**External Deadline:** 13th February 2017

**NEW: MS Research Australia | Incubator and Proteomics Incubator Grants**
- **Incubator Grants:** grants to provide seed funding for the early stages of innovative new research efforts, with the aim of generating preliminary data needed to support future grant applications.
- **Proteomics Incubator Grants:** for research that is done in collaboration with the MS
Research Australia Proteomics Platform investigators. The proposed research must explore a novel hypothesis in a field relevant to MS research. Incubator funding is designed to support new research directions, and provides seed funding to obtain pilot data. It is expected that this will lead to subsequent project grant applications to NHMRC and/or MS Research Australia

**External Deadline:** 24 February 2017 ...[more]

**NEW:** Great Barrier Reef Marine Park Authority | Science for Management Awards
Funding for students working towards a doctorate or master’s degree in the physical, biological and social science disciplines throughout Australia. The awards support research which:
- is relevant to the planning and management of the Great Barrier Reef Marine Park and World Heritage Area;
- makes a contribution to the Reef’s ecologically sustainable development; and
- is particularly relevant to addressing the knowledge gaps identified in the agency’s Science Strategy and Information Needs ...[more]

**External Deadline:** 10 March 2017

**INTERNATIONAL:**
*Please note, external dates from International sponsors are listed using Sponsor local time*

**NEW:** Leukemia Research Foundation | Hollis Brownstein Research Grants Program
The Leukemia Research Foundation exclusively funds New Investigators – individuals beginning to establish their own laboratories that are no longer under the tutelage of a senior scientist mentor. Preference is given to proposals that focus on leukemia, lymphoma, MDS, and multiple myeloma ...[more]

**External Deadline:** 1 February 2017 (LOI)

**Closing Soon:**
- **Ian Potter Foundation | Round 1 Grants**
  External Deadline: 24 January 2017...[more]
- **Lake Macquarie | Environmental Research Grants**
  External Deadline: 27 January 2017...[more]
- **Transurban| Innovation Grants**
  External Deadline: 30 January 2017...[more]
- **University of Sao Paulo & Coordination for the Improvement of Higher Education Personnel Foundation | Visiting Professor Grants (Portuguese- translation required )**
  External Deadline: 31 January 2017...[more]
- **National Multiple Sclerosis Society |Barancik Prize for Innovation in MS Research**
  External Deadline: 31 January 2017...[more]
- **World Federation of Hemophilia | Clinical Research Grant Program (CA)**
  External Deadline: 1 February 2017...[more]
- **Hereditary Disease Foundation | Grants and Fellowships (US)**
  External Deadline: 1 February 2017...[more]
